This week's featured women's wholesaler is Lisamichelle, a beautiful collection of women's apparel.

Inspired by architecture and the beauty of art, Lisa Felsenthal launched a collection of women's apparel in Spring 2008. One year later, the Lisamichelle collection has been seen in respected publications such as WWD and can be found at boutiques in New York City and Los Angeles. The only place it isn't yet is your store - and if you sell gorgeous high end women's apparel, then this is a must have for your customers.

Lisamichelle offers designs that are great for formal, fun and festive. But it doesn't stop there. Busy professionals will look beautiful in Lisamichelle pieces, from their blousy tops to tailored jackets. With a feminine spin on each

piece, Lisamichelle brings style to wardrobe basics with her simple yet stand-out designs. Silk, wool and all other fine materials are meticulously found by the designer herself to ensure both beautiful designs and beautiful fabrics. Women in Lisamichelle will feel feminine and confident while playful and daring. This is a must have addition to stores that cater to women who want to look their best. Having designed for Monique Lhuillier and Rozae Nichols prior to launching her own collection, you can trust that Lisamichelle only offers quality and style in her work. Be the first in your area to offer Lisamichelle!

To learn more about how you can get Lisamichelle in your stores, contact Lisamichelle at info@lisamichellecollection.com. You can also call 310.498.4322. Be sure to check out the entire collection at www.lisamichellecollection.com.

Through our IN THE SPOTLIGHT section, we offer retailers and wholesalers the opportunity to link together by being introduced to each other as well as general consumers. If you would like to be considered for IN THE SPOTLIGHT, please email Retail Minded at nicole@retailminded.com.
